grs ii Quin Bisulph plain. Sulphate of Quinine in tablets

504/181. Agar Agar raw, the same as is used for medicine, boil it in water then cool slightly, pour into a glass dish drop in tabloids so that agar covers. Let it set into a hard jelly. Stamp out tabloids with a glass tube open (at) each end larger enough bore to leave a little agar all round tabloid

Agar Agar 20 grs
Water made up to ℥i
Boil till homogenous jelly results.
Pour into a flat tin to the depth of about 1/4 inch
Allow to cool slightly, & drop in the tabloids.
Pour again to completely cover
Stamp out when cold with glass tube about 3/5 ins diameter

To make 24, requires about ℥iii of the base.
(Note:- make up to volume after boiling)

wrap each in grease proof paper & then in tin foil & send out in tin lined c̄ tin foil.

XXIV in Capsule box 4/6.
